

Webconvert Rubberized Cork Tape

Rubberized cork tape is a cost effective roll covering used to replace worn corked rollers/idlers on web guides and wherever web traction assistance and light tensions are encountered.

Size	Roll Length
2" x 1/16"	100ft
2" x 1/8"	50ft

Webconvert Traction Tape

Commonly known as the "Printer's Friend", this is available as a smooth or embossed siliconized cloth, designed to wrap around rollers on any style of converting machinery. The unique design guarantees a high coefficient of friction that grips the web as it passes over rollers to keep material moving. A special release coat keeps inks, coatings, or adhesives from building up on the rollers or drums.

Type	Size	Roll Length
Dimple (4863)	2"	27.5yds
Smooth (4563)	2"	27.5yds

Web-Trac T-Traction Tape

Web-Trac T is the same proprietary rubber compound as **Web-Trac**, in tape form (2 inch wide, .080" thick), used in order to cover larger diameter rollers and for special applications. **Web-Trac T** is available in 35 meter rolls, either with adhesive or without.

Size	Roll Length
50mm x 2mm	35m

WEB-TAC Web Cleaning Roll Covering

Web-Tac is a proprietary rubber material that features a tacky surface, capable of picking dirt and contaminants off of moving webs. Unlike other bonded tacky rubber coverings currently offered in the market, however, **Web-Tac** is a rubber sleeve that is able to slide over existing idler rolls, making it the most versatile tacky roll covering available.

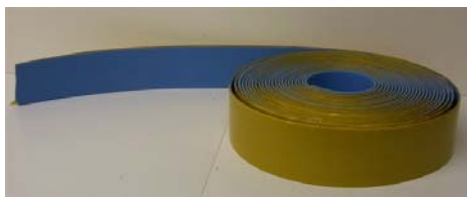

Web-Tac eliminates the need for special rollers, the need for spare rollers and the costly process of sending rollers out for repair. **Web-Tac** can be installed on site, over existing rollers, in a matter of minutes.

Web-Tac is available in rolls (400" long) or in cut lengths, and in a wide range of sizes ranging from 1.5" to 6" diameters.

Diameter Inch	Diameter mm	Thickness
1.5"	29.5mm	2.0mm
2.0"	39mm	2.0mm
2.5"	48mm	2.0mm
3.0"	58mm	2.0mm
3.5"	67mm	2.0mm
4.0"	74mm	2.0mm
4.5"	86mm	2.0mm
5.0"	98mm	2.0mm
6.0"	125mm	2.0mm

Web-Tac T is the same proprietary rubber compound as **Web-Tac**, in tape form (2 inch wide, .080" thick), used in order to cover larger diameter rollers and for special applications. **Web-Trac T** is available in 25 meter rolls, either with adhesive or without.

Size	Roll Length
50mm x 2mm	35m
